## How to get SAS if you are a local student:

You will obtain SAS from the Software Center located in the Computing Services Center (CSC). You will be required to fill out the SAS Student Form and provide blank DVDs.

Go to http://sell.tamu.edu/Personal/Student_Software_List/SAS_Student_Software_License.php for more information.

## How to get SAS if you are a distance student:

There are two options for distance students but no matter which option you use, you will be required to submit the Student SAS Form (http://sell.tamu.edu/files/studentsasFY2013.pdf). It is very important that you are sure to specify whether your system is 32-bit or 64-bit.

The two options are:

1. **Purchase a preloaded USB thumb drive for $20** *(cost is for thumb drive, not the software)*
   a. Go to: https://secure.touchnet.com/C21490_ustores/web/product_detail.jsp?PRODUCTID=546
   b. You must follow all instructions listed on the product page.
   c. The code to purchase is **s@sjmp.**
   d. You must submit the form to Andrew Moua via fax (979-845-6060) or email (amoua@stat.tamu.edu).

   **NOTE: DO NOT SUBMIT THE FORM TO THE SOFTWARE CENTER whose information is listed on the back of the form. If you do, this will delay the process and you may not receive the software.**

2. **Acquire SAS through the Texas A&M Software Center (**http://sell.tamu.edu/Personal/Student_Software_List/SAS_Student_Software_License.php **)**
   a. Fill out the Student SAS form.
   b. Mail your completed form and 5 DVDs to the Software Center.

   Please contact the Software Center for assistance or more information.

   Please email Andrew Moua (amoua@stat.tamu.edu) if you have any questions about the procedures above.

*SAS allows students to access SAS products online. Please see dostat for information on accessing SAS OnDemand for Academics. This is only for online access to SAS. To install SAS on your personal computers, use a method above to acquire the installation files.*
